

Chair Report

November 2022

Fellow Commissioners,

Director Alvarez and I met for our normal update meetings. I also joined a meeting with Director Alvarez and AG Finke to discuss the AG's representation in motions related to clients. The details are being worked through and pending cases will be addressed soon.

My focus continues to be the report. I attended all Research and Data meetings as scheduled. I completed a draft of the introductory materials with the exception of a section Director Alvarez is writing. I am also working on case studies. Per the Commission's direction, I completed a draft of the Board recommendation for both the final report and use by the drafter. I continue to review and provide feedback on early section drafts as they are available.
